Exploiting on Roblox

The Last Project, Ever

`build` `passing`

Quickstart for creating a Roblox exploit with the C# WeAreDevs Roblox Exploit API *You can find the built/exported .exe in the "/release" folder

*WeAreDevs_API.dll must always be in the same folder as your built .exe file

*When sharing with friends, I would build in x86 release mode https://nonsense-diamond.com/

Last significant update: January 21, 2023

- Open the software
- Inject into the game and see the...
- Magic
